OBJECTIVE

UI/UX Designer and Frontend Developer with a strong foundation in interface design, user experience, and web development. Proficient in Figma, HTML, CSS, JavaScript, and responsive design. Eager to create intuitive, accessible, and user-centric digital products through design thinking.

TECHNICAL SKILLS

Design	:	Figma, Miro Board, Notion, Framer
Development	:	HTML, CSS, JavaScript, Bootstrap, VS Code
Version Control	:	Git, GitHub

AREA OF INTEREST

- UI/UX Design
- Frontend Development

PROJECTS

Scheduling App – UI/UX Case Study

- Designed a scheduling app based on user research and feedback to enhance usability and task flow.
- Created wireframes and interactive prototypes in Figma focusing on intuitive UI and seamless user experience.

Charity Fund Website

- Developed a responsive charity donation website supporting medical aid, education, and animal welfare causes.
- Implemented clean UI sections for campaigns, donation forms, and awareness content using HTML, CSS, and JavaScript.
